

## Bio of Ms Liana Jacinta Jaganathan, MYREN

Liana has been with MYREN since its initiation in 2005 and has since progressed from a network engineer to a program manager till date. Her forte is organizing various awareness programs for MYREN in terms of roadshows, technical talks, seminars, conferences and trainings for both the academic and research community in a variety of technical and research related topics. Liana also oversees the existing 11 working groups and nurtures potential research areas to be part of MYREN to collaborate locally and globally. Liana too has close engagements with TEIN partners, our international connectivity provider as well others international collaborators nation-wide.
